Korea's Original Pickup

NEW MUSSO

* Images shown throughout this catalogue may differ from actual specifications : Optional features and accessories may be shown.
** All human figures and background images used in this catalogue are AI-generated.

Engineered for Strength Built on True Pickup Heritage

MUSO, named after the Korean word for rhinoceros, represents an unmistakable presence.

With a redesigned front and a more commanding stance, the MUSO and MUSO Grand convey the confidence of a pickup built for real-world demands.

MUSSO Grand

EXTERIOR

A bold, commanding front design ensures the MUSSO Grand stands out from the very first glance.

Bold Front Design

Full LED Projection Headlamps

LED Rear Combination Lamps

MUSSO Grand

STYLE

For workdays or weekends away, the MUSSO Grand adapts with ease.
From business demands to leisure activities, it brings versatility to everyday life.

MUSSO

EXTERIOR

An assertive front design and elevated stance give the MUSSO a confident off-road character.

The front grille further reinforces its undeniable identity as a true pickup.

Centre Position Lamp

Wheel Arch Garnish

20-inch Diamond-Cut Wheels

MUSO

STYLE

Designed for off-road activities and outdoor getaways, the MUSO moves effortlessly from daily driving to genuine off-road use.

Centre Console

12.3-inch Digital Cluster (ATHENA 3.0 GUI)

INTERIOR [Diesel]

An interior shaped by intuitive design and solid detailing creates a space that feels both stable and purposeful.

SPACE

The thoughtfully designed second row provides generous space and relaxed comfort.

Rear Seat Centre Armrest with Cup Holder

DECK

The MUSSO Grand focuses on enhanced utility for business and leisure, while the MUSSO balances everyday urban driving with outdoor capability. Both offer flexible deck options to suit different lifestyles.

MUSSO Grand

MUSSO

* Deck capacity is measured according to VDA standards.

POWERTRAIN

The MUSSO Grand offers more than one approach to pickup performance. Whether prioritizing strength and efficiency or responsive driving with a smooth, quiet ride, each powertrain delivers a distinct character to match different preferences.

e-XDi 2.2ℓ Diesel (4WD, 6AT)

202	Max Power ps / 3,800rpm
441	Max Torque Nm / 1,600~2,600rpm
3.5t	Towing Capability * With Brake

Part-time 4WD

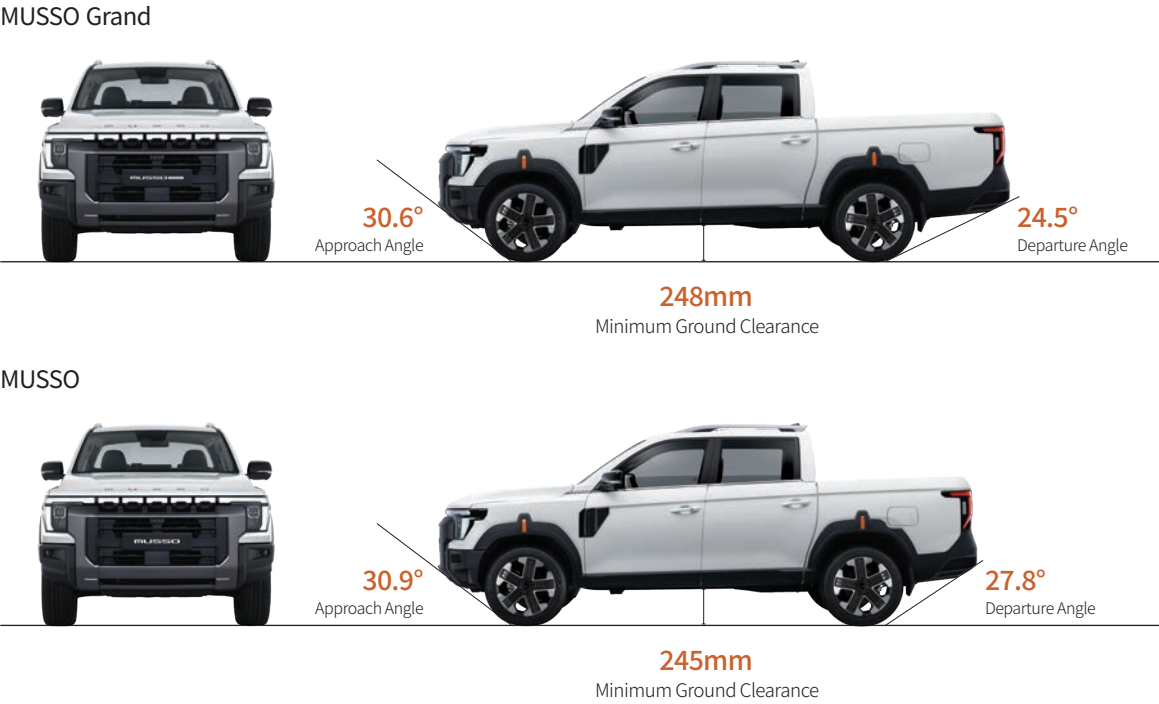

Part-time four-wheel drive allows the driver to choose when to activate the system, depending on changing conditions on or off the road. Operational safety and efficiency are therefore superior to that of a full-time 4WD system.

OFF-ROAD CAPABILITY

Built to handle more than it shows, the MUSSO and MUSSO Grand are engineered for confident off-road capability.

From generous ground clearance to optimized approach and departure angles, every element supports stable performance across varied terrain.

SUSPENSION

The MUSSO and MUSSO Grand are engineered to balance ride comfort and load-carrying strength—offering the right solution for every need.

5-Link Suspension

The five-link suspension provides stable performance on uneven roads while effectively absorbing impacts. It reduces body roll and delivers a comfortable, refined ride for rear passengers.

Deck Max Capacity (kg)	MUSSO	MUSSO Grand
	400	500

* Figures shown are manufacturer reference values and are not legally certified load limits.

Leaf Spring Suspension

With a simple and robust structure, this suspension offers excellent durability and load-bearing capability. Designed for heavy-duty use, it is well suited for commercial applications and off-road driving.

Deck Max Capacity (kg)	MUSSO Grand
	700

LIFESTYLE

Life doesn't follow one pattern.
With MUSSO and MUSSO Grand, everyday life adapts to the way you live.

MUSSO Grand

MUSSO

Clear Sight View (CSV)

Camera views allow the driver to intuitively check ground conditions and obstacles beneath the vehicle. This reduces the risk of underbody contact and supports stable driving in off-road environments.

3D Around View Monitoring System (AVM)

Using four exterior cameras, the system displays a 3D view of the vehicle's surroundings. It enhances safety when parking or driving in narrow spaces by minimizing blind spots.

Intelligent Adaptive Cruise Control (IACC)

Maintains a set speed while automatically adjusting distance from the vehicle ahead, supporting smooth and stable driving.

Intelligent Speed Assist (ISA)

Recognizes road speed limits, displays them on the dashboard, and assists the driver in maintaining the appropriate speed.

Wireless AACP (Android Auto & Car Play)

Wireless smartphone connectivity for intuitive control of navigation, music, and calls—without cables.

TECHNOLOGY

Advanced technologies enhance the pickup experience with greater convenience and intuitive control. Designed to support everyday driving, the MUSSO and MUSSO Grand deliver a connected and user-friendly environment.

LED Deck Light
Illuminates the cargo area for easier loading and inspection in low-light conditions, with simple operation via a deck light switch.

Deck Hook
Increased from four to eight hooks to secure various loads more firmly and enhance cargo stability.

Wireless Mobile Phone Charger
Allows convenient cable-free charging with a stable, easy-to-access placement.

Smart Key Remote Engine Start
By pressing the HOLD button on the smart key, the engine can be remotely started and the doors unlocked from up to 30 metres away.

Bumper Rear Step
Improves access to the deck, making loading, unloading, and everyday tasks easier and more stable.

CONVENIENCE

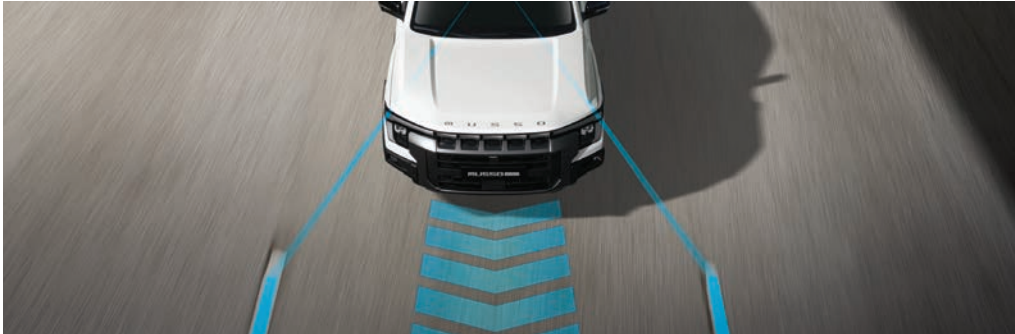

Thoughtful details for both driver and passengers, combined with practical pickup-focused features, create an experience that becomes more satisfying with every drive.

ADAS (Advanced Driver Assistance System)

A comprehensive suite of safety technologies addresses a wide range of driving conditions and unexpected situations.

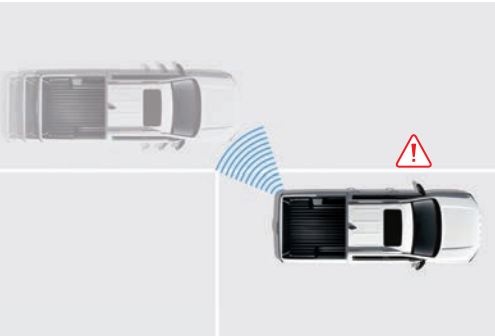

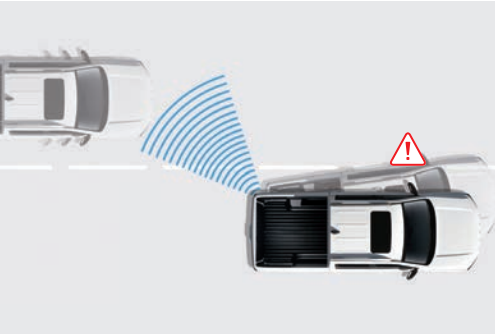

DMS (Driver Monitoring System)
Activates visual and audible warnings when continuous driver gaze below the steering wheel or instrument panel is detected while driving.

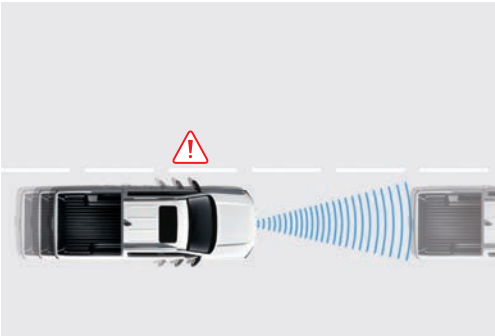

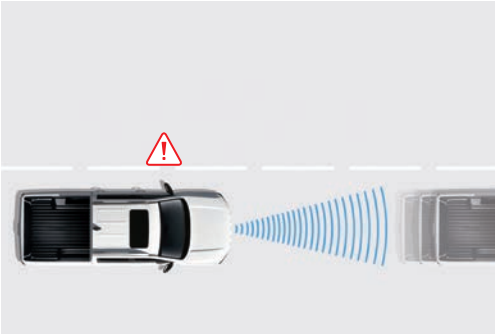

Lane Departure Warning (LDW) / Centering Lane Keeping Assist (CLKA)
LDW/CLKA uses a front camera to monitor the painted lane markers on the road. It automatically corrects the electric power steering to keep the vehicle within the intended lane.

Forward Collision Warning (FCW) / Autonomous Emergency Braking (AEB)
If a forward collision is detected, FCW/AEB alerts the driver and initiates automatic braking to avoid an accident.

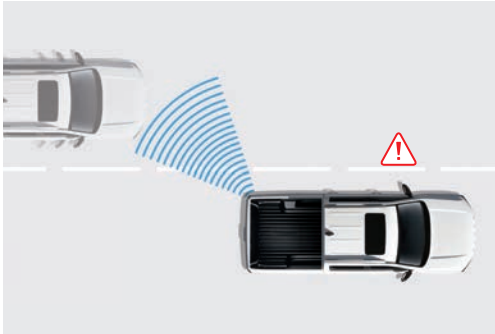

Lane Change-Collision Warning (LCW)
LCW warns the driver when a vehicle is detected overtaking from the rear side and provides an alert when the turn signal is activated for a lane change.

Safety Exit Warning (SEW)
When a driver or passenger attempts to exit the vehicle when stationary, SEW alerts the driver and passengers with warning lights and sounds.

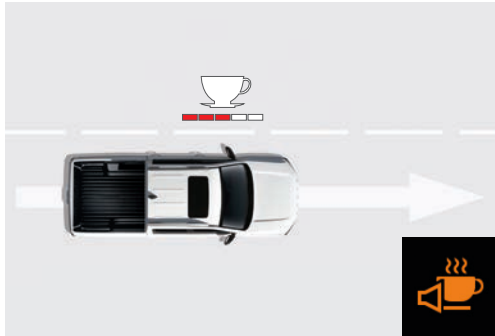

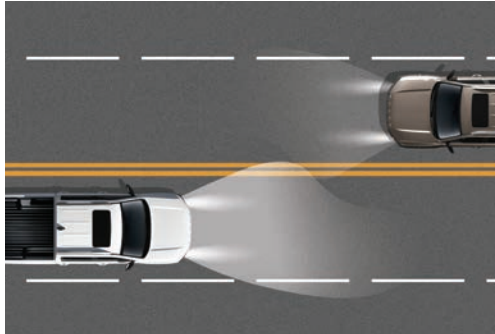

Front Vehicle Start Warning (FVSW)
FVSW attracts the driver's attention with a visual pop-up alert and audible sound when the vehicle directly in front is pulling away.

Safety Distance Warning (SDW)
SDW detects the distance from the vehicle ahead and warns the driver when a safe distance is not properly maintained.

Blind Spot Detection Warning (BSW) / Blind Spot Collision Assist (BSA)
BSW/BSA automatically assists braking when the driver changes lanes and the system detects a risk of collision with vehicles in the blind spot.

Rear Cross Traffic Warning (RCTW) / Rear Cross Traffic-Collision Assist (RCTA)
While parked or in reverse, RCTW/RCTA detects objects approaching towards the vehicle and alerts the driver of a potential collision and activates emergency braking.

Smart High Beam (SHB)
SHB detects road brightness and oncoming traffic conditions, automatically switching between high and low beams to support safer driving in various situations.

Driver Drowsiness Attention Warning (DDAW)
If the DDAW system senses that the driver's attention level has significantly reduced, it will sound an audible warning and display a graphic on the instrument cluster.

SAFETY

A strong focus on structure and core safety features forms the foundation of the MUSSO and MUSSO Grand. Built to account for varying driving conditions, it delivers consistent stability on the road.

Locking Differential
On mud, snow or other slippery surfaces, one wheel may slip or lift into the air. In such circumstances, the locking differential locks both wheels on the same axle together so they turn in unison, allowing the vehicle to recover its traction and momentum.

6 airbags
1. Driver airbag 2. Passenger airbag 3/4. Driver & passenger side airbags 5/6. Curtain airbags

1. Emergency Stop Signal (ESS) 2. Hill Descent Control (HDC) 3. Trailer Stability Assist (TSA)

Fixed Side Step (Customizing Item)

Built with a sturdy design, it supports safe and easy entry and exit.

Roll Bar (Customizing Item)

Adds a bold accent to the deck area, enhancing rugged character and dynamic styling.

Off-road Side Step (Customizing Item)

Featuring off-road-oriented design and practicality, it creates a bold and rugged side profile.

* Customization item availability may vary by market. Please contact your local distributor for details.

FEATURES & WHEELS

A distinctive exterior design is paired with practical convenience features, creating a well-balanced pickup with clear everyday value.

Black Outside Rear View Mirror

Fender & Door Garnish

Safety Sunroof

Rear Under View Camera (HD type)
